

Crizal® PREVENCIA™
No-Glare Lenses

PREVENCIA™

Now Available
in Stock Lenses

Crizal® Prevenicia™ is now available in stock lenses at Nassau! It is the first clear lens on the market that selectively deflects harmful Blue-Violet light while allowing beneficial Blue-Turquoise light to pass through using Light Scan™ technology. The lenses feature a slight Blue-Violet reflection on the front side of the lens; making it the first lens with visible proof that it deflects harmful Blue-Violet light!

CRIZAL® PREVENICIA™

- Selectively filters out harmful blue light while allowing beneficial blue-turquoise light to enter
- 25x more UV protection than with no lens at all
- Superior clarity of vision
- Resists glare, scratches, smudge, dust and water
